PROFESSIONAL SUMMARY

Full-Stack Developer and Computer Science graduate (GPA 3.76) with hands-on experience building responsive web applications, integrating REST APIs, and developing database-driven features. Proficient in React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, and SQL. Led the redesign of the SPS website into a maintainable, feature-based architecture. Focused on clean code, usability, and reliable delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion
Backend: Node.js, Express.js, PHP, RESTful APIs
Databases: MongoDB, Mongoose, MySQL, SQL Server
APIs & Security: REST API integration, JWT authentication, Postman
Tools & DevOps: Git, GitHub, Bitbucket, Docker, Jenkins, Virtual Machines, Ubuntu (Linux)
Practices: Feature-based architecture, reusable components, responsive design, debugging

PROFESSIONAL EXPERIENCE

Web Developer (Internship & Project-Based Work) | Software Productivity Strategists (SPS), NSTP Islamabad | *Jun 2025 – Present*

- Started through SPS internship tracks (BMS Developer, Infrastructure Support, DevOps and Automation) and continue to contribute to web development projects.
- Redesigned the SPS website and restructured it into a feature-based architecture, improving organization and maintainability.
- Contributed to multiple SPS website projects by building smaller features, UI components, and page improvements with a focus on responsive design, usability, and consistency.
- Completed the Infrastructure Support internship track in Mar 2026.

Intern Software Engineer | Green Signature, Islamabad | *Nov 2024 – Oct 2026*

- Developed and maintained responsive web interfaces and application features using React.js, Next.js, and TypeScript.
- Built CRUD workflows and backend functionality using Node.js and Express.js.
- Designed and queried MongoDB and SQL databases to support data-driven application features.
- Troubleshot and fixed bugs, improved responsiveness, and collaborated with the team to refine product functionality.

SELECTED PROJECTS

SPS Website Redesign | Next.js, TypeScript, Tailwind CSS
Redesigned the company website with a feature-based structure and responsive layouts for easier maintenance and scaling.

Online Doctor Appointment System | React.js / Next.js, Node.js, Express.js, MongoDB
Full-stack scheduling application with patient and doctor workflows, date/time selection, and appointment status management.

Online Shopping System | Next.js, Node.js, Express.js, MongoDB
Full-stack e-commerce platform with product catalog, cart, checkout and order flow, and an admin panel for product management.

KPPSC Management System | React.js, Node.js, Express.js, MongoDB
Candidate and examination management portal that organizes application and exam workflows.

SBSD Website Homepage Redesign | Next.js, TypeScript, Tailwind CSS, Framer Motion
Responsive public-sector homepage redesign with motion effects and clearer section presentation.

EDUCATION

BS Computer Science | University of Science and Technology, Bannu | 2019 – 2023 | GPA: 3.76

FSc Pre-Engineering | Govt. Girls Degree College Mandan | 2017 – 2019 | Grade A

SSC / Matriculation | Govt. Girls High School Piran Khan | 2015 – 2017 | Grade A+

CERTIFICATIONS

- SPS Internship Experience Certificate, Software Productivity Strategists (2025 program)
- SPS Track Certificates: BMS Developer, Infrastructure Support, SPS Web Development – 2026, Web Developer
- IBM Cloud Essentials, 100% completion
